

# Individual Whānau Support

Odyssey recognize that it can be difficult when a loved one enters one of our services and with this in mind, we are conducting a 6-month pilot to offer individual whānau support for anyone who is supporting a family member, significant other, or friend who is a client of any Odyssey House service.

This support is independent of any work being undertaken with the client. The sessions will provide a supportive space to talk with a family worker and identify what supports would be helpful.

*If you would like more information about this service,  
please call Adele Sherry:*
